# The Giver of Life

“And it is Allah Who sends the winds, which then stir up ‘vapour, forming’ clouds, and then We drive them to a lifeless land, giving life to the earth after its death. Similar is the Resurrection.”

(Surah Fatir: 9)

Think about the trees. During winter, they might look bare and lifeless. But then, spring comes and suddenly new leaves and flowers burst to life! Or think about a baby chick hatching from an egg. How does the egg’s yolk and white turn into a living bird that can move, chirp, and eat?

Allah - Al Muhyee - is the one who gives life. He gives life to the plants and the animals. And He gave us life too! When our time on this Earth is over, we go back to Him. On the Day of Judgement, He will give us a new life.

# A Plant's Life

Draw and label the different stages in a plant's life (Seed, Sprout, Young Plant, Flowering Plant). Show how Allah makes the plant grow!
